Features & Benefits

Product Features

- The minimal 25 mm tray height creates the ultimate wetroom look at a fraction of the cost
- Discreet side waste for a minimal style and maximum standing area
- Unique waste design allows choice of horizontal or vertical outlet pipe connection
- Water seal of 50 mm within waste trap
- The removable waste trap makes cleaning easier and catches stray hairs, helping to prevent blockages
- Waste performance 30 l/min @ 10 mm, 40 l/min @ 15 mm head height
- Flight technology reduces weight and increases robustness
- BioCote® technology fights mould and bacteria, reducing it by upto 99.9%
- Designed to perfectly complement the Mira Ascend Shower enclosure range

Material

Product Material

- Polyconcrete core
- Acrylic surface
- BioCote® incorporated

Product Datasheet

Installation

Product Installation

The innovative honeycomb back skin reduces the tray's weight and adds strength, making it stronger yet lighter

The level tray can be fitted flush to the floor, surface mounted, or installed on riser legs

The oblong waste design easily fits between floor joists and the waste pipe can be connected horizontally or vertically for flexible installation

Codes/Standards

Product Codes/Standards

BS EN 14527:2016

The only level tray on the market with a waste that meets NHBC building regulations
